## PROFESSIONAL PROFILE

I'm a creative developer offering over two years of experience developing high-visibility web solutions across various industries. I'm Experienced Full-stack developer with a demonstrated history of working in the information technologies in an Agile product development team. I always aspire to combine broad technical skills and experience as a **Front-end and Back-end Developer**.

## TECHNICAL SKILLS SUMMARY

- Python, PHP, JavaScript (React.js, Angular.js, and TypeScript) & jQuery, CMS (WordPress) .NET Framework ,Django Rest Framework, SQL databases (MySQL, PostgreSQL) and Android
- UI design tools ( Adobe XD, Adobe Photoshop, Adobe Illustrator)
- CSS (LESS and SASS preprocessors)
- Jest, Webpack, Google Analytics, Linux, RESTful API, version control (Git)

## WORK EXPERIENCE

### SOFTWARE DEVELOPER | Cyberz Soft Solutions

KERALA, INDIA

MAR 2019 – JUL 2021

- Developed websites from front to back using React, JavaScript, TypeScript, CSS, HTML, PHP, Python, .NET Framework and Android, ensuring efficiency, maintainability, and scalability.
- Enhanced user experience and met website objectives by creating a user-friendly website structure, navigation, page optimization, and graphics integration that made prospects eager to do business with our clients.
- Designed and maintained corporate and client websites using scripting languages and content management systems, including WordPress.
- Assisted Senior Frontend Developers and Backend Developers with multiple tasks
- Implemented Frontend platforms on React.js from pure HTML and CSS.
- Effectively communicated with native and remote developers, which helped them work collaboratively.
- Achieved a high level of customer satisfaction and acceptance by continuously monitoring the quality and performance of applications through testing and maintenance.

## **EDUCATION**

### **WEB DESIGN & DEVELOPMENT**

**CERTIFICATE, CONESTOGA COLLEGE (MAY 2021 – AUGUST 2022)**

### **MASTER OF COMPUTER APPLICATION**

**MCA, FISAT(JUNE 2016 – MAY 2019)**

### **BACHELOR OF COMPUTER APPLICATION**

**BCA, NCIT (JULY 2013 - MAY 2016)**

## **SIDE PROJECTS**

### **FlicksTV - OTT Platform**

FlicksTV is an OTT (over the top) platform which refers to TV and film content That can be viewed using the internet connection by making an account instead of satellite service or cable connection. Moreover,FlicksTv application is created by using NodeJS, React, and MongoDB. It also has the following technical components that make an incredible viewing experience with extra security features. RestAPI models, Rest API Routes, JWT authentication, Password Encryption, REST API CRUD operations, React JS, React material UI, React Firebase storage, and Responsive web design principles.

### **EVENT BASED VIDEO SUMMARIZATION**

It is the process of creating and presenting the meaningful abstract view of the entire video in a short period of time. Event detection is the process of identifying important key frames to eliminate physical verification of lengthy videos by security officer. This project created by HTML as Frontend,Python as Backend,Falsk was used as server and OpenCV Python libraries were used.

## **COMMUNITY INVOLVEMENT**

Developer meetups, exploring the outdoors, Football. I volunteered at a mission serving food and cloths to the needy.
